AIR BUBBLE SYSTEMS

fluvo® AIR BUBBLE SYSTEMS

Sparkling massage

An air bubble massage in your own pool is pure wellness. The buoyancy of the water in connection with countless, sparkling air bubbles put the body in a state of suspension. In addition to the gentle and tingling massage, we achieve fantastic lighting effects in combination with underwater spotlights from our **fluvo®** brand.

fluvo® air bubble systems can be used in bubbling bays, reclining zones or seating niches. Air pads are available in different designs and sizes for installation in the floor or as bench seats. There are no limits to the variety of combinations. Individual designs are also possible. All air bubble systems are matched to the powerful air blowers from the **fluvo®** range. The ergonomically shaped air bubble lounger acrylair with 4 air channels ensures a very special wellness experience.
