WATER CURTAINS

cobra® WATER CURTAINS

Visual highlights

cobra® water curtains are the visual highlight at the pool. However, they do not only enrich your bathing landscape visually and acoustically. The massage of the powerful gush of water on the upper body, neck and shoulders ensures a pleasant and effective massage effect.

cobra® water curtains are made of high-quality stainless steel or of the high-tech material carbon. The cobra® carbon is extremely robust and corrosion-resistant and can be produced in any colour. Or in premium quality: black – with visible carbon.

Decades of experience in the development and perfecting of water curtain systems are behind the perfect **fluvo®** veil. Each model has its own shape, volume and a precisely calculated waterfall. We have optimized our products down to the smallest detail, so that you can enjoy the most beautiful moments by and in the pool at any time.
